PROFESSIONAL SUMMARY

Results-oriented Software Engineer and Full Stack Developer with a strong foundation in both **MEAN Stack** and **PHP/Laravel** ecosystems. Currently pursuing a B.Sc. in Computer Science at **Benha University**, with a proven track record of completing **330+ hours** of intensive technical training at the **National Telecommunication Institute (NTI)**. Experienced in **architecting scalable backend systems, engineering RESTful APIs**, and developing responsive front-end interfaces. Adept at leveraging modern tools like **Git, Postman, and Docker** to streamline the software development lifecycle. Committed to writing clean, optimized code and implementing robust database solutions using **MongoDB** and **MySQL**.

EXPERIENCE

Backend Developer Intern | PureSoft, Shebin El Kom, Egypt

Jan 2026 – Present

- **Architecting** scalable backend solutions and robust server-side logic using **PHP** and **Laravel** framework.
- **Engineering** secure **RESTful APIs** and optimizing data flow between the server and frontend applications.
- **Optimizing** complex database queries using **Eloquent ORM** and **MySQL**, enhancing overall system response time.
- **Collaborating** with cross-functional teams using **Git/GitHub** to deliver high-quality, production-ready software.

Freelance Yard (Remote) | Full Stack Developer (Freelance)

JAN 2026 – Present

- **Successfully delivered 5+ full-stack projects** using the **MEAN Stack**, meeting all client requirements and deadlines.
- **Designed and deployed end-to-end solutions** for startups, integrating **MongoDB** for flexible and scalable data management.
- **Architected secure authentication systems** and real-time features, improving user security and engagement.

MEAN Stack Intern | National Telecommunication Institute (NTI), Egypt

Sep 2025 – Dec 2025

- **Completed** an intensive **210-hour** technical residency focused on building full-stack applications with **Node.js** and **Angular**.
- **Engineered** real-world projects during **180 hours** of hands-on coding, mastering **NoSQL (MongoDB)** and **Express.js**.
- **Participated** in **30 hours** of professional coaching and freelancing workshops to enhance software delivery standards.

Full Stack Trainee (DEY Program) | NTI in collaboration with ITIDA, Egypt

Jul 2025 – Aug 2025

- **Executed** intensive hands-on training in **Full-Stack development**, focusing on **PHP, Laravel, and React.js**.
- **Developed** multiple web modules as part of the "Digital Egypt Builders" initiative, adhering to modern IT standards.
- **Utilized** tools like **XAMPP, Apache, and Bootstrap** to build and deploy local web environments.

D.Pear Company, Egypt | Front-End Web Development Intern (Team Lead) SUMMER 2025 (6 WEEKS)

- **Led a development team of 4** to build a high-performance Restaurant Website, coordinating task assignments and code reviews.
- **Developed 10+ responsive web modules** using React.js and Tailwind CSS, achieving a **100% design fidelity** score.
- **Boosted mobile user engagement by 25%** by implementing mobile-first design strategies and optimizing assets.

SKILLS

- **Technical:** PHP, Laravel, Node.js, Express.js, Angular, React.js, MongoDB, MySQL, Git, Docker, REST APIs.
- **Soft Skills:** Agile Methodology, Technical Leadership, Problem-Solving, Team Collaboration.

EDUCATION

B.Sc. in Computer Science | Expected 2027 Benha University, Faculty of Science

CERTIFICATIONS

- **MEAN Stack Web Development Specialist** | National Telecommunication Institute (NTI) — **2025**
 - *Completed an intensive 210-hour track covering MongoDB, Express.js, Angular, and Node.js.*
- **Full Stack Web Development (PHP/Laravel)** | NTI & ITIDA (DEY Program) — **2025**
 - *Gained 120+ hours of advanced training in backend architecture and database management.*
- **Professional Web Development Track** | IBM SkillsBuild Academy — **2024**
 - *Certified in modern web standards, frontend optimization, and industry best practices.*

AWARDS & RECOGNITIONS

- **MEAN Stack Technical Excellence**, NTI – Awarded for completing **210+ hours** of intensive coding.
- **Best Project Lead Recognition**, D.Pear – Awarded for successfully managing the restaurant web project.
